

STREAM Program: How Stuff Works

Mr. Dale Montgomery will be present the STREAM program "How stuff works, Reverse Engineering" at the Carteret County Public Library Saturday, June 3rd from 10:00-11:30 a.m. for children aged 7-12. We will take stuff apart and see how it works; we may even put it back together again. Bring your old clocks, watches, VCR's and small appliances for demolition.

Please join us for this fun and educational event! Space is limited so RSVP by calling the library at 252-728-2050.
